

Who Are We?

The National Omicron-Psi Honor Society is established specifically for the nontraditional student. Established as a non-profit organization in 1993, we encourage participation in community related activities. Omicron-Psi chapters are located throughout the United States. We recognize the achievements and sacrifices that are made by these students and encourage their continual academic pursuits through scholarships and awards.

The Darwin Foundation governs Omicron-Psi. This Foundation consists of graduates who have been established as exemplary community pillars. Their function is to review and select scholarship recipients.

Scholarships/Benefits

Omicron-Psi Silver members may apply as many years as they continue their academic pursuits. Membership dues are used for scholarship monies. Darwin Foundation directors are excluded from scholarship awards. Beautiful certificates, insignia pins and honor cords are awarded to members at their induction ceremony.

National Omicron-Psi

Honor Society

A Distinction of Honor

Omicron-Psi *Silver* is a *high* honor given by our Society. We acknowledge those students who have maintained, into their *sophomore* year, the highest of ethical standards. We promote the continued educational enrollment into graduate programs with scholarships. The following requirements must be met for application of this honor:

- 1) Must be at least 22 years of age;
- 2) Have attained *sophomore* status or higher;
- 3) Have a minimum cumulative GPA of 3.0 on a 4.0 scale;
- 4) Currently participate in *three* community activities. Examples may include, but are not limited to, 4H, Church related activities, senior centers, Boy/Girl Scouts, etc.
- 5) Maintain the principles of duty, honor and service;
- 6) Demonstrate high ethical standards in all aspects of life.

*Please note age discrimination policy, community activity policy, and alternative grading systems on web site.
